Marc MacDermott Appearing in Eugeue Aram, Four-Reel Edison Fea-

The wonderful tale of Eugene Aram, The wonderful tale of Eugene Aram, the student, teacher and accused murderer of Clark, is remarkably told in the great Edison four-reel feature at the Colonial theatre today. It is an adaptation of the novel by Edward Bulwer Lytton, with scenario by Richard Ridgely, the great producer. The story is clearly told of Clark, who is returning from India with jewels given him as a reward for saving a life. him as a reward for saving a life. These jewels he is bringing to his son, Walter. These facts were learned by Houseman, who determines to rob Clark. Eugene arriving in time to see the attack on Clark, tries to stop the affair, but Houseman has dealt the killing blow, and Eugene watches from the tbicket and sees the body covered with leaves. Five years afterwards, Eugene is a schoolmaster in Grassdale, England, and while in Walter's home Houseman forces an entrance and Eugene shoots him, but not fatally. Houseman recognizes Eugene and demands of him large sums of money to keep from Eugene's friends the particulars of Clark's death. Under influence of intoxicants, Houseman overhears strangers telling of the unserth. fluence of intexicants, Houseman over-hears strangers telling of the unearth-ing of a skeleton, supposed to be that of Clark. Houseman interrupts by stating that they are wrong, as he can snow them Clark's skeleton. Walter tappens in the inn. Houseman takes him to the spot and shows him the body, telling him Bugene Aram did it. The balance of the picture tells in a vivid manner of the discovery of the real culprit and how he was brought to justice. This is one of the most masterly parts ever played by the famasterly parts ever played by the famous Marc MacDermott, and he is

Wanderful Mysteries Will Be Perform ed on the Auditorium Stage Next

One of the biggest vaudeville acts that has ever played in Norwich will be the attraction at the Auditorium next week, when Kar-Mi, prince of india, and his royal troupe of Oriental neoromencers will present the most astonishing series of mysteries ever witnessed. This act carries over two long of special apparatus and the most beautiful stage settings ever seen in this theatre. It has played throughout the United States, as well as the foreign countries, and has always appeared in the biggest theatres. Kar-Mi and his royal troupe will give a maring armon subject. startling spirit work, and will perform many big illusions which are the limit of human endurance and which seem absolutely impossible.

Prince Kar-Mi will remain at the Auditorium all week, but will introduce an entirely new act the last three days, performing all new mysteries and making entirely different tests, etc. On the Paramount picture programme for Monday and Tuesday, Jesse L. Lasky in association with David Belasco will present Belasco's noted success, The Woman, by William C. DeMille, with a specially engaged star cast. It is a drama of modern political life in Washington and tells the story of how a courageous gir telephone operator prevents a congir: telephone operator prevents a con-greasional "grab" and a domestic scan-dal. The photodrama is in five reels and is of unusual interest. Universal photoplays will also be shown. Today three excellent acts of vaude-ville will be on the bill, as well as a taken from the famous stage success of the same name and with the original cast.

POPULAR LECTURE.

George S. Worcester will deliver or Monday evening a lecture on The Pic-turesque Philippines, the second of the Slater hall course of popular lectures. Mr. Worcester, who is an experienced Travers playing the leads.

Everyone has heard of Miss Allen and there are few who have not heard of her stage triumph in this wonderful play, but the stage version and the picture version are incomparable. She has given to the screen the best that was in her, and the result is the greatest photoplay ever shown on any screen. The following is a brief outline of the play:

Disinherited, illegitimated under the Italian law—her lover reported dead in Africa—heartbroken and weary of the world, Dona Angela Chiaromonte becomes The White Sister, devoting her life to good and the service of the Master. Called to nurse her dying aunt, Angela learns she was disinherited because the aunt stole her father's tions in the Philippines can hardly do its people." Mr. Worcester's lecture, which will begin promptly at 8 o'clock, affords an unusual opportunity to acquire a more intimate knowledge of this strange and fascinating land. AN EXACTING TIRE TEST. Diamond Squeegee Treads Show Remarkable Mileage in Taxicab Service at Oakland, Cal.

One of the most remarkable tire tests on record was made recently in Oak-land, Cal., whose records of the service rendered by the tires used on a line of taxicabs operated by the city were

kept.
The tires used were Diamond Squeegee Treads, 30 of them being placed in
service, under the supervision of James
Ready, foreman of the Corporation

Mr Ready's report shows that the 30

is particularly hard on tires.

Taxis, as a rule, are heavy cars, and in addition to their own weight they are pretty likely to carry extra heavy

It would be difficult, indeed, to find a It would be difficult, indeed, to find a more severe test upon tires than they get in regular taxicab service. The mileage records of the 30 Diamond Squeegee Tread Tires used on the Oakland taxis appear, therefore, to constitute strong proof of the wearing qualities of these tires.

ities of these tires.

The fact that only two of the tires were returned for adjustment is a fur-ther indication of the general excel-lence of Diamond Squeegee casings. Individual records of the tires show that the greatest mileage was rendered by a 31x4 tire, which delivered 11,638 miles. The next best was a 31x3 1-2 tire, which gave 10,910 miles; the third, a 31x4, which traveled 10,196 miles, and the fourth, a 31x3 1-2, 9,876 miles.
